Life never stands still, and that's true even for Montgomery County, NC. In the past year, new businesses have opened their doors, well-established businesses have changed ownership. Many businesses operate in quiet corners of the county employing local talent, strengthening the tax base, and contributing to our quality of life.

Montgomery Community College is proud to be a part of the growth and development of many businesses in the county. Through customized training programs, small business assistance, and apprenticeships, MCC and local businesses work together with a common goal of creating success.

As you explore the pages of our spring schedule, we invite you to discover some

of the businesses we worked with in 2018, which provided training opportunities for our apprentices. As you learn more about the apprenticeship program, you'll understand the important role these businesses play in the county's economic growth and stability.

Continuing your journey through these pages, you will discover many opportunities for personal growth. Explore new job skills or a new career, explore tools for starting or developing a business, explore new interests with like-minded new friends, or fulfill a lifelong goal to earn your high school or college credential.

Take a journey of discovery and see what awaits as you explore the many opportunities at Montgomery Community College in 2019.

APPRENTICESHIP MONTGOMERY CLOSING THE SKILLS GAP

What is the manufacturing skills gap and how does it affect Montgomery County?

A skills gap is the difference between the skills required to do a particular job, and the actual skills that employees possess. When an industry says it is experiencing a skills gap, this means they are having difficulty finding workers to hire that have the skills the job requires.

There is currently a skills gap affecting the manufacturing industry and by the year 2025, it is predicted that over two million jobs will go unfilled due to the skills gap (Deloitte and Manufacturing Institute).

Manufacturing employers in Montgomery County are taking steps to remedy the skills gap by looking for new ways to recruit and train workers for key jobs. In 2014, Apprenticeship Montgomery was started to recruit high school juniors and seniors, give them paid, on-the-job training, and pay for their college education. At the end of the apprenticeship, the apprentices have the skills and education they need to be highly employable.

Since 2014, the apprenticeship program has placed over 30 apprentices in over a dozen sites around the county. The program has expanded and now recruits military veterans and NC National Guard members. Internships have expanded to include not only manufacturing jobs, but information technology and business management positions.*

If you are an employer interested in filling a skills gap in your business by starting an apprenticeship, contact Jessica Hamilton at 910-898-9674. If you're interested in seeing if you qualify for an apprenticeship, please call the same number.

*Types of apprenticeships available will depend on employer needs.

WHY

explore an
apprenticeship?

- ▶ Paid on-the-job training
- ▶ Free college education

WHO

may apply?*

- ▶ High school juniors or seniors in career/technical pathways
- ▶ MCC students enrolled in skilled trades programs
- ▶ Military vets or NC National Guard looking for entry into advanced manufacturing, information systems or business management.

*Job availability is based on employer participation and employment needs

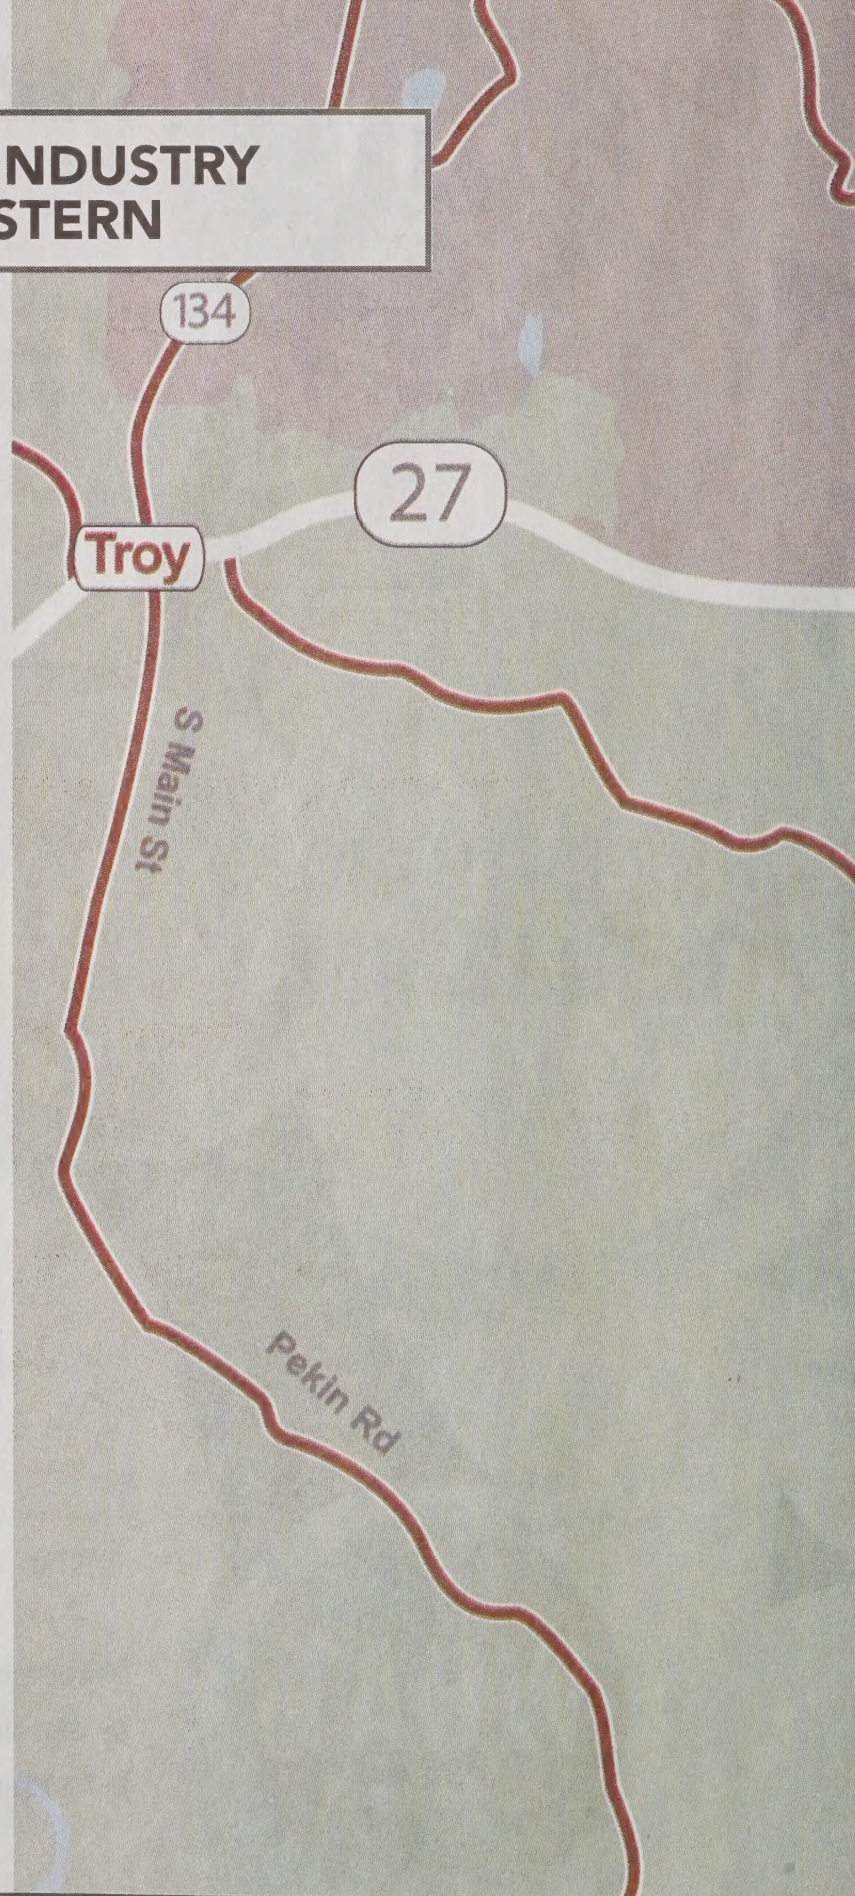

WHAT

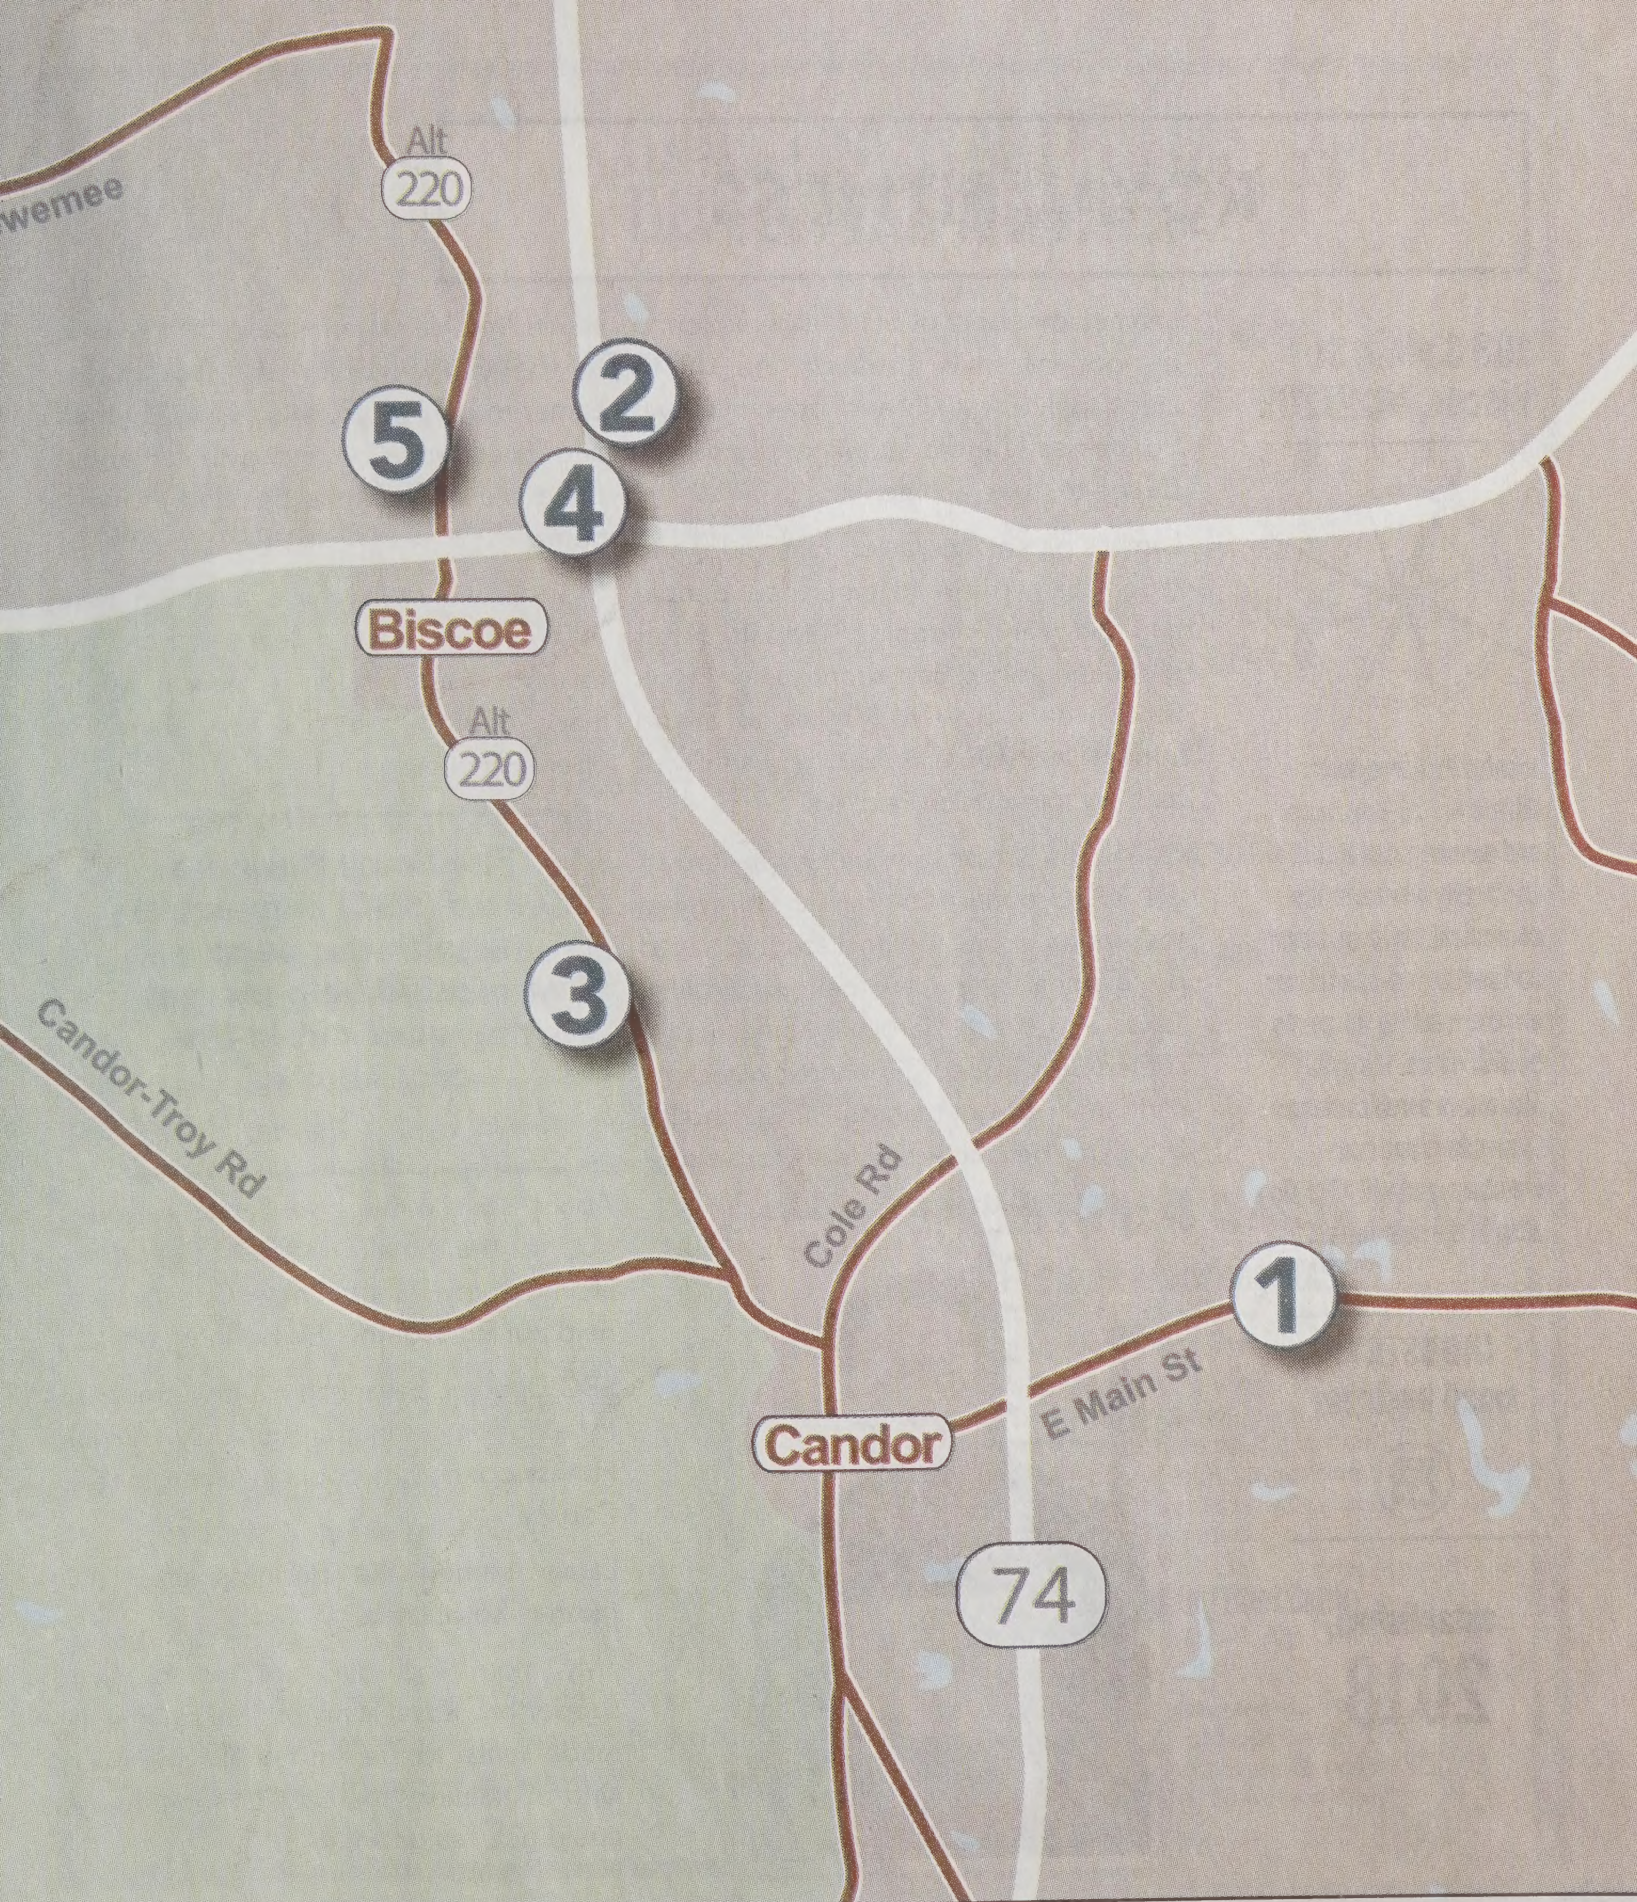

degree can I earn?

- ▶ Associate in Applied Science in Industrial Systems Technology
- ▶ Associate in Applied Science in Information Technology
- ▶ Associate in Applied Science in Business Administration

ROYAL FITNESS

108 S Main St
Biscoe, NC 27209

Located in Biscoe, Royal Fitness is a 24-hour gym and members can access the facility whenever it's convenient for them. Lamar and another on-site trainer are there during the gym's busiest hours. The gym also offers aerobics classes to members and non-members, and will offer Jiu Jitsu in the near future.

INDUSTRY:
small business

established
2018

Lamar Little spent over 10 years exploring his options while traveling the US to study, play football, and open his own businesses before coming home to Biscoe to make an impact.

Lamar's parents were very outgoing, and taught Lamar how to meet new people and be very outgoing himself. After graduating from East Montgomery High School, he moved to Virginia to attend Virginia Union University to play quarterback for the Virginia Union Panthers.

During his senior year, he was invited to the NFL Scouting Combine and traveled to Georgia for his training. Later, he played professional arena football in Virginia, Texas and North Carolina. Lamar finally settled back in Georgia where he became certified in weight training and started his first gym. He trained athletes for various

sports and his experience in professional football contributed to his success. Later, Lamar moved to Oklahoma and opened and operated a second gym for about three years. Finally, he decided to move home.

"I knew we didn't have anything here at home like what I learned from my trainers," Lamar said. "I knew it would make a bigger impact here than if I opened in a bigger city."

"The Small Business Center (SBC) connected me with the people who could help me get the word out in the community."

-Lamar Little

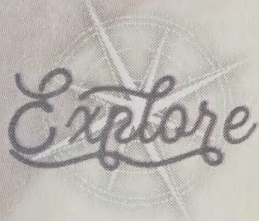

About six months ago Lamar reached out to the Small Business Center at Montgomery Community College for help pulling together his business plan.

SBC Director, Savannah Heath, arranged for a ribbon cutting, and on July 1 Royal Fitness opened its doors in Montgomery County.

Lamar named the business after his mother, Royal Little.

"My mom and dad are my biggest supporters. Royal is my mother's name. It made sense to me – it felt like the best kind of training, the best treatment you could get," said Lamar.

TOOLS FOR STARTING OR DEVELOPING A BUSINESS

BE OUR GUEST: PERFECTING THE ART OF CUSTOMER SERVICE SERIES

Can you think of a company that doesn't depend on customers to be successful? Of course not! In fact, most of what you do as a business owner is tied to making your customers happy and satisfied. Smart business owners are continuously sharpening their tools to be able to provide the best service possible and smart customers recognize good customer service when they see it. In fact, most customers are willing to pay more for excellent service, and on the flip side will take their money elsewhere if they feel like they are not getting it. Superior customer service is a win-win for everyone. *Be Our Guest* is a new, 10-part, online series focused specifically on how to grow your business through improved customer service. Register now for this ground-breaking series that will show you how to make customers happy and keep them coming back for more. These free, online classes are held the 2nd and 4th Tuesday of each month.

ABERDEEN CAROLINA & WESTERN RAILWAY

967 NC Hwy 211
Candor, NC 27229

The Aberdeen Carolina & Western Railway Company in Candor is the largest privately owned regional freight railroad in North Carolina. It operates a 150-mile stretch of rails connecting with CSX and Norfolk Southern railroads, with lines running from Charlotte to Raleigh and south to Pinehurst. The company focuses on getting shipments from industrial facilities to larger railroads across the US.

INDUSTRY:
transportation

28+
employees
established
1987

The Aberdeen Carolina & Western Railway (ACWR) Company in Candor is the largest, privately owned regional freight railroad in North Carolina. It operates a 150-mile stretch of rails connecting with CSX and Norfolk Southern railroads, with lines running from Charlotte to Raleigh and south to Pinehurst. The company focuses on getting shipments from industrial facilities to larger railroads across the U.S. The railway moves agricultural, construction, and forest products and liquid fuels. The family-run company was founded in 1987 by Owner and Chairman, Robert Menzies. The company employs anywhere from 28-32 people who do everything from repairing and maintaining rail cars to restoring passenger cars and polishing brass.

"Because we are such a small company, everyone wears a lot of hats," said Jennifer Harrell, ACWR President.

Last summer, Montgomery Community College's Public Safety Drone Academy worked with the NC Department of Transportation (DOT) BeRailSafe initiative at ACWR. BeRailSafe and

ACWR simulated a moving vehicle/moving train crash to evaluate strategies to prevent or deter motor vehicle rail incidents.

"We provided a locomotive for the simulation," said Harrell. Standing vehicle train wrecks had been examined before, but never moving vehicle train wrecks. Harrell said this simulation was the first of its kind and as a result, valuable new data was collected from the exercise.

"Being able to partner with Montgomery Community College provides great exposure on a local level for ACWR," said Harrell. "Aberdeen Carolina & Western Railway understands the value and importance of community partnerships, and we believe that when our community thrives, we thrive," she said.

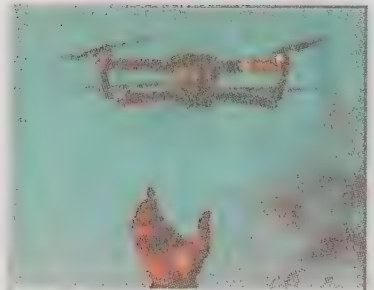

ACWR has been exploring cooperative education opportunities with the college and is evaluating ways in which they can provide jobs for students.

"We see a great value in Montgomery Community College's co-op, internship and apprentice programs because it provides the opportunity to observe potential candidates, assess their fit within our organization and receive a preview of their abilities. It allows the candidate to decide if it is a good fit for them as well," said Harrell.

"When we are able to explore the different ways we can partner within this community, it becomes a trickle effect for a better local economy, employed individuals and loyal employees."

-Jennifer Harrell

K-M MACHINE CO INC

275 Sedberry Rd.
Biscoe, NC 27209

K-M Machine/R.L. Kellam Company was founded as a family-owned metal fabrication business in 1901. It is owned and operated by brothers Kelly and Bobby Kellam. The company manufactures structural steel, tanks, towers & silos, conveyor systems, piping & ductwork, heavy gauge transitions, custom machinery, walkways & platforms, stairs & handrails, fencing & gates, and material handling equipment.

INDUSTRY:
manufacturing

100+
employees

established
1901

K-M Machine became an Apprenticeship Montgomery site last year in large part due to the influence of K-M Shop Manager, Adam Garner. K-M's apprentice is Daniel Sessoms, a former student of Adam's. In his previous job, Adam taught at East Montgomery High School.

"I taught welding and mechanics at the high school. I've known Daniel since he was a freshman and I've seen him grow. Not just in hands-on skills but interacting in the workplace. He has developed a good rapport with everyone in the shop. At 17, he's doing stuff that some grown men struggle with," said Adam. Daniel started at K-M working in the paint department and progressed into fabrication. As he learns more he is given additional responsibility.

"I've always been a big supporter of education and Kelly and Bobby (Kellam) consider it an investment," said Adam.

"They want qualified, skilled workers and they want to do their part to foster that in our youth so they can get good paying jobs and be productive when they graduate," he said.

K-M was always a great supporter of the ag programs at East. So when Adam came to work for K-M, the apprentice program was like a continuation of that relationship. Apprenticeship allows the students to discover what's available to them in terms of employment.

"The apprentice program is a means of exploration for the students. Here, they are seeing all aspects of a metal fabrication company. They aren't just in the same place doing the same thing over and over. They're getting acclimated to the whole process which gives them a good understanding of the whole business," he said.

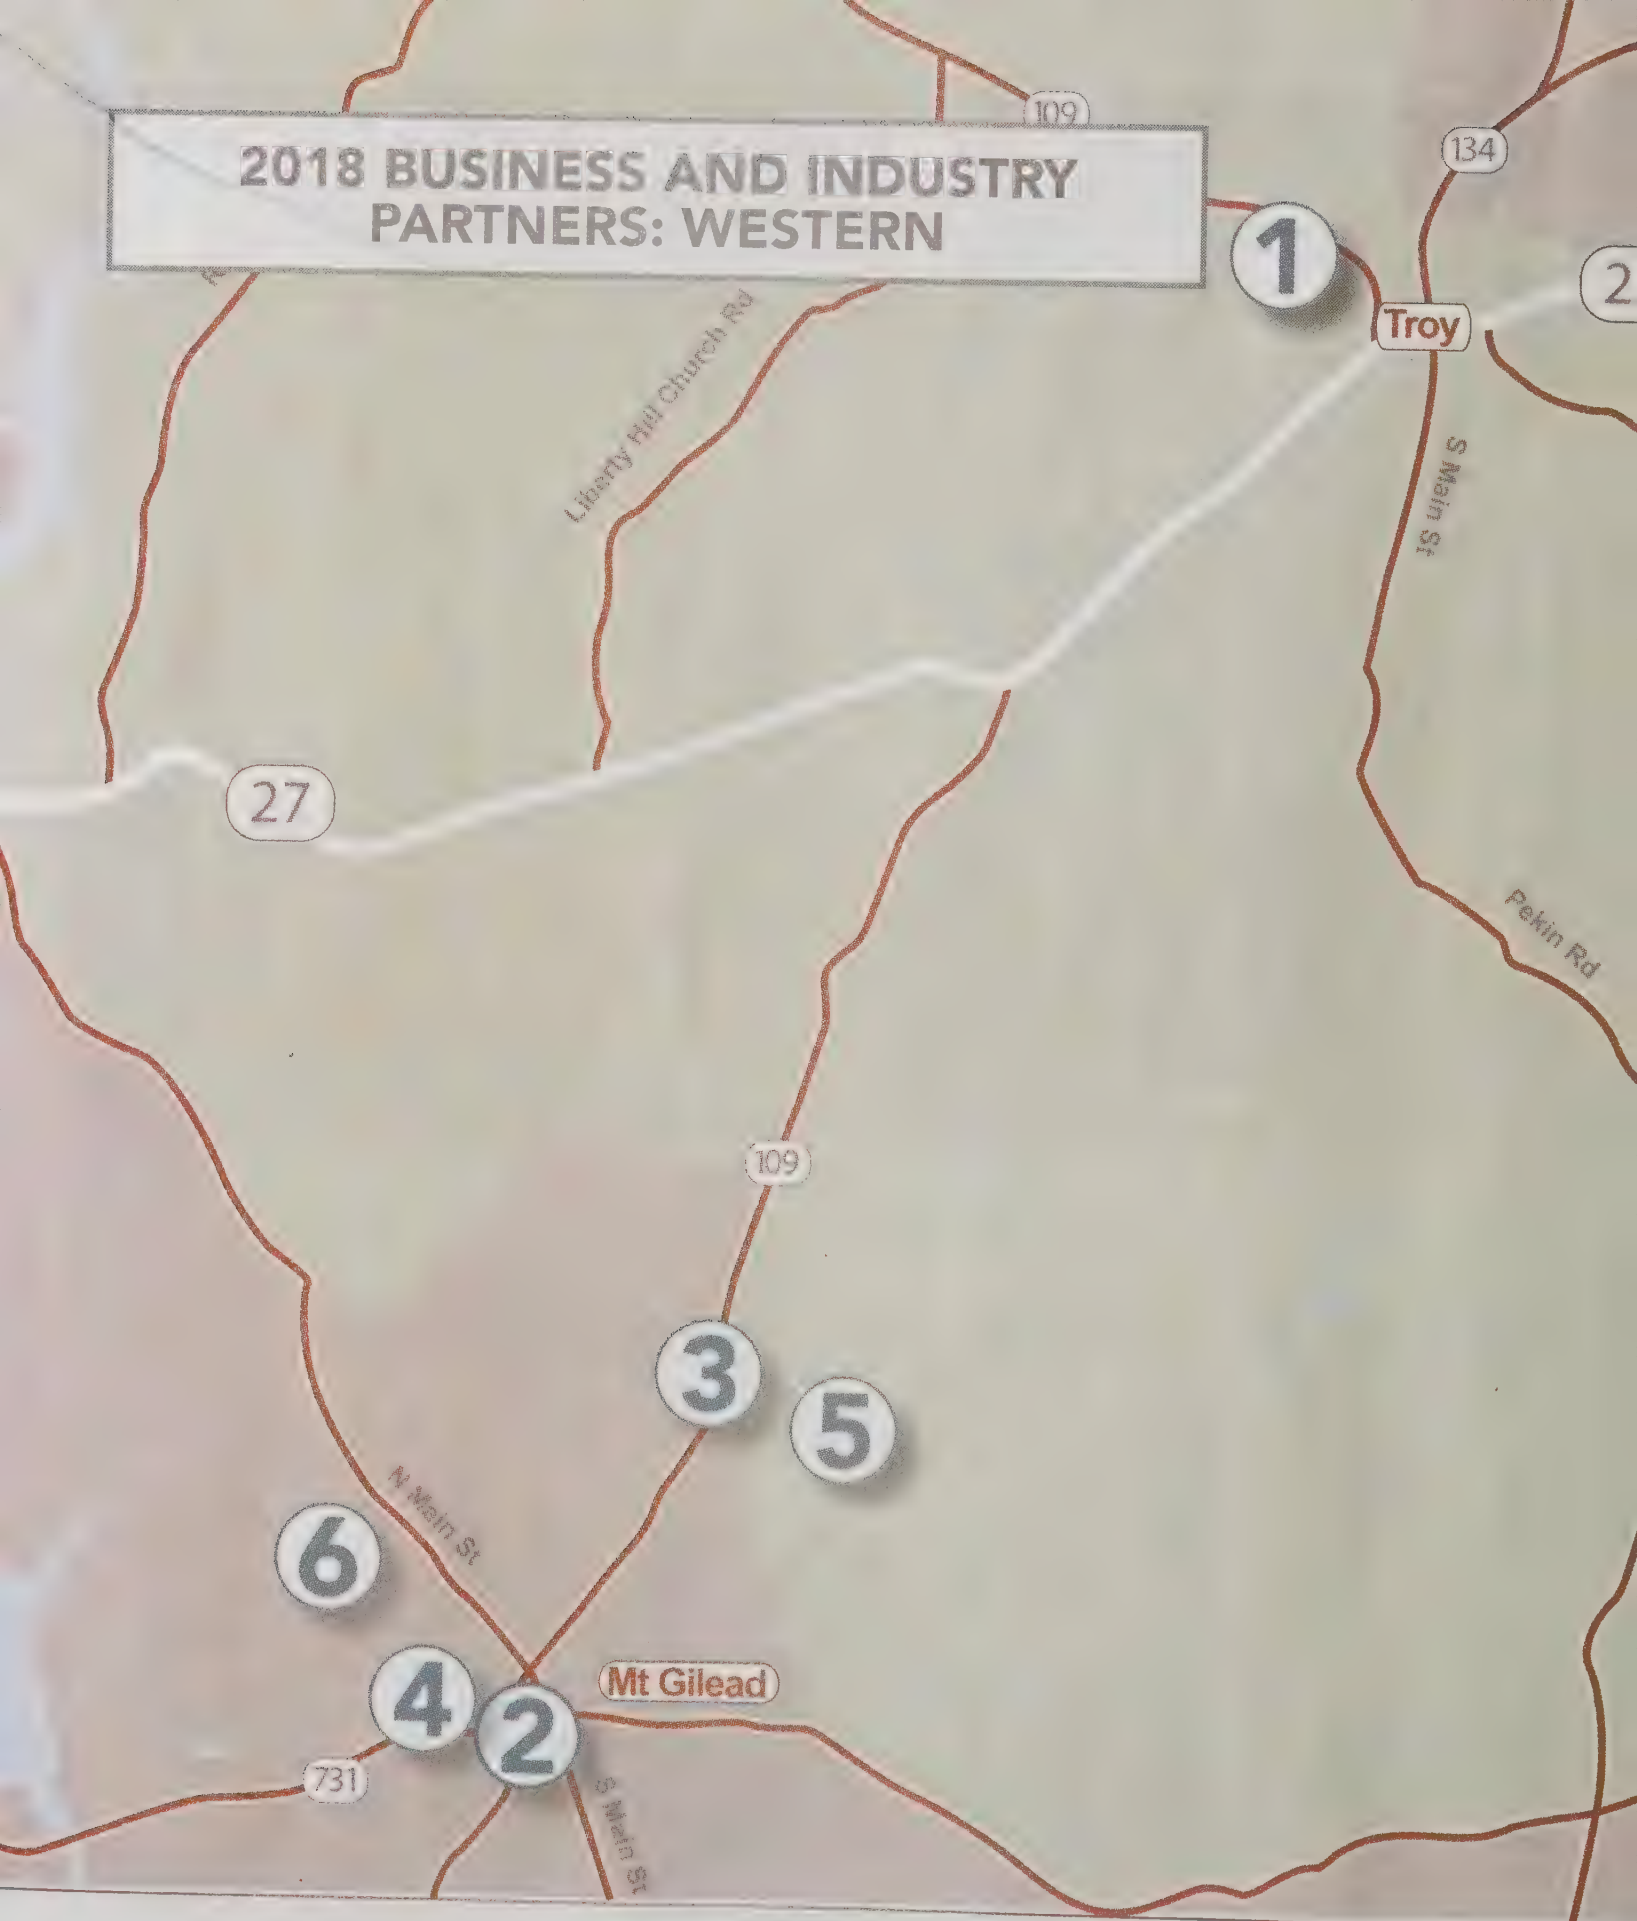

ON-THE-JOB TRAINING THROUGH NC WORKS

In addition to being an apprenticeship site, K-M Machine provides on-the-job training for MCC graduates. Whitney Kendrick and Daniel Bruton took welding at Montgomery Community College and now work full time for K-M Machine in the on-the-job training (OJT) program.

OJT is offered through the college's NCWorks Career Center where employers hire workers through the Workforce Investment Act (WIA). WIA allows for up to 720 hours of training over a three-

to-six-month period. The employer pays the worker, and WIA reimburses the employer 50% of the worker's salary. Adam learned about the program at one of the apprenticeship meetings and quickly took advantage of it. "Whitney and Daniel are skilled employees who want to further their careers. That's what we're looking for at K-M, whether male or female. There is an industry stereotype that this work is just for males, but it's not. Years of education and teaching taught me that," Adam said.

ALANDALE KNITTING LLC

210 Burnette St
Troy, NC 27371

"Textiles and manufacturing are alive and well in the USA. The negative conceptions that circled this industry for so many years are going away. There are great opportunities for younger generations to create successful and long-lasting careers here. The continued growth of the industry depends on it."

**-Morgan Richardson,
Marketing & Customer Service**

INDUSTRY:
textiles

70+
employees

established
1966

Alandale Knitting, LLC became a new apprenticeship site in 2018. Ed Spach, Administrative Operations Manager at Alandale said that as a result of the company's growth, new skilled workers are needed, and Alandale looked at the apprenticeship program to help meet those needs.

"Alandale Knitting is growing and our entry into the apprenticeship program is one way we are exploring new avenues of developing talent in the community," Spach said.

Alandale's apprentice is Daniel Phillips, a student in Montgomery Community College's Industrial Systems Technology program. Under the supervision of Jose Salazar, Phillips is learning knitting machine maintenance, performance, installation, and repair.

Alandale Knitting Mills was established by Alan Gutschmit in 1966 with three knitting machines at a gas station in Troy.

"Alandale Knitting is growing and our entry into the apprenticeship program is one way we are exploring new avenues of developing talent in the community."

-Ed Spach

The company now occupies the 120,000 square-foot facility on Burnette Street where it survived the recession and the mass exodus of the textile industry to foreign markets. Alandale Knitting, LLC currently employs approximately 70 people.

PAPERWORKS

5465 NC Hwy 73
Mt Gilead, NC 27306

PaperWorks Industries is a full-service provider of recycled paperboard and specialized folding cartons for packaging applications. Founded in 2008 and headquartered in Philadelphia, PA, the company is committed to the highest sustainable forestry and procurement standards. The Mount Gilead operations plant employs 75 people.

INDUSTRY:

established
2008

PaperWorks Industries is a full-service provider of recycled paperboard and specialized folding cartons for packaging applications. Founded in 2008 and headquartered in Philadelphia, PA, the company is committed to the highest sustainable forestry and procurement standards. Its product certifications include the Forest Stewardship Council and 100% Recycled Paperboard Alliance. The Mount Gilead operations plant employs 75 people.

Kenneth Bowman is the Apprenticeship Montgomery participant at PaperWorks. He was hired in January of 2017 as an operator to run gluing equipment. Then in July, Kenneth was moved up to a maintenance technician position and is doing that work full time.

Because PaperWorks operates proprietary equipment, they train internally. The company needed an apprentice over the age of 18 with some mechanical aptitude. Kenneth is enrolled in the Industrial Systems Technology program at Montgomery Community College and is learning to become a technician. Kenneth is already working in his field of study thanks to PaperWorks and the apprenticeship program.

ALTERNATE ARMS

108 W Allenton St
Mt Gilead, NC 27306

Located in the heart of Mount Gilead, ALTERNATE Arms is a gunsmithing repair shop focusing on general firearm repair and metal finishing. Tom Alt, after completing the gunsmithing program at MCC, opened the business while also remaining at the college as a part-time gunsmithing lab assistant. With help from the Small Business Center, he hopes to expand his business in the near future.

INDUSTRY:
small business

established
2016

I was living on the west coast and exploring Gunsmithing schools all over the country when I narrowed my search down to the four sanctioned by the NRA. The NRA program was a draw for me because I wanted to keep learning and have access to some of the titans in the industry. When I finally visited MCC I knew, "This is the school for me."

I always knew I wanted to open a business. My wife Darcia and I took small business classes in anticipation of setting up shop. We made a lot of contacts with people we could call on when we had questions. In my first year as a Gunsmithing student I took the Hunting & Shooting Sports Management classes which were a huge help.

Fourteen months ago we moved into the shop in Mount Gilead. I was in a good position because I had retirement income from the military and worked part-time as a lab assistant for MCC's Gunsmithing school. It was the best of both worlds. I have the ability to continue to pick the instructors' brains. It's amazing how much I learn in a class I've seen two or three times. With the new students come new questions and they prompt new ideas and new thought.

More recently we went back to the Small Business Center to explore possible methods of securing funding if we do a major expansion.

My business focuses on general repair, and some metal finishing. I work on a little of everything. It's nothing short of amazing how this community welcomed us and helped us successfully integrate.

—Tom Alt, Owner of ALTERNATE Arms

"I work on a little of everything. It's nothing short of amazing how this community welcomed us and helped us successfully integrate."

MCC Gunsmithing School Now Largest in the Country

MCC has recently expanded its Gunsmithing school to accept up to 105 students in its combined day, evening, and weekend programs, making it the largest Gunsmithing school in the U.S. The school has over 9,000 square feet of dedicated space including two machine shops with 13 milling machines, 23 high-speed precision metal lathes, a metal refinishing room, and a paint shop with curing ovens and paint booths. There is an arms room with a comprehensive library of over 200 firearms for use as instructional aids. MCC has its own on-site, 100-yard outdoor range for test firing. Students spend more than two-thirds of class time in the shops applying what is learned in the classroom.

MCC is one of only four schools in the country sanctioned by the NRA to offer their short-term gunsmithing classes. Here is a sneak peek at what's coming in 2019. The full schedule will be posted at www.montgomery.edu/nra when registration opens on December 1, 2018.

NEW! FIBEROPTICS

Train to work in the telecommunications field. Fiber optic technicians are professionals in the telecommunications industry who install, maintain, troubleshoot and repair fiber optic systems according to industry standards with respect to field applications and specifications. Courses prepare individuals to take the certification exam associated with the job title.

Certified Fiber Optic Technician (CFOT)

MTW | 3/25–3/27 | 8a–5p | \$575

Fiber Optic Technician certification verifies an overall knowledge of fiber optics systems used for any application.

Certified Fiber Optic Specialist in Testing & Maintenance (CFOS/T)

ThF | 3/28–3/29 | 8a–5p | \$550

Fiber Optic Specialist in Testing & Maintenance certification verifies specialist knowledge in dealing with the installation and testing of fiber optic cable.

CERTIFIED FIBER OPTICS TECHNICIAN COURSES

These courses introduce industry standards governing FTTD, FTTH and distribution cabling. Courses prepare individuals for the CFOT or CFOTS/T test given on the final class day.

MARCH 25–29, 2019

8AM–5PM

Course fees as listed include books, study materials, exams and one-year membership to the FOA.

This course is sanctioned by the Fiber Optic Association (FOA), the largest professional society of fiber optics in the world.

NEW SKILLS OR A NEW CAREER

HVAC

Heating & Heat Pump Technology

1/7-5/7 | MTW | 8a-11p | \$181.60

Covers fundamentals of heating including oil, gas, and electric heating systems and the principles of air source and water source heat pumps.

HVAC Job Ready

1/8-5/2 | MT | 12:30p-4:30p and
1/8-5/2 | Th | 8a-4:30p | \$181.60

Topics include North Carolina HVACR codes, maintenance and servicing of HVAC equipment, fabrication and layout of duct work, and common business and customer relations practices including invoicing, warranties, telephone communications, etc.

HVAC Controls

1/9-5/1 | W | 12:30p-4:30p | \$181.60

Covers the types of controls found in residential and commercial comfort systems. Includes electrical and electronic controls, control schematics and diagrams, test instruments, and troubleshooting of electrical systems.

WELDING

1/7-5/6 | MTWTh | 6p-10p | \$201.60
1/9-5/2 | WTh | 1:30p-5:30p | \$201.60
1/7-4/28 | MTWTh | 7a-5:30p | \$201.60

ELECTRIAL & INDUSTRIAL

DC/AC Electricity

1/7-5/1 | MW | 8a-10:30a | \$181.60
1/7-5/1 | MW | 6p-8:30a | \$181.60

Fundamentals of DC/AC circuits, computations, components, and operation of test equipment.

Electronic Devices and Circuits

1/8-5/2 | TTh | 1p-4:30p | \$181.60

Covers diodes, transistors, linear integrated circuits, and IC voltage regulators. Topics include power supplies, switching circuits, amplifiers, oscillators, active filters and related topics.

Residential Wiring

1/8-5/2 | TTh | 8a-12p | \$181.60

Covers residential electrical installations and requirements of the National Electrical Code.

Motors and Controls

1/7-5/1 | MW | 10:30a-12:30p,
2:30p-4:30p | \$181.60
1/8-5/2 | TTh | 6p-10p | \$181.60

Covers ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Learn to select, connect, and troubleshoot motors and control circuits.

Industrial Electronics

1/8-5/2 | MW | 9a-12p | \$181.60

Covers semiconductor devices used in industrial applications. Topics include the basic theory, application, and operating characteristics of semiconductor devices.

Process Controls with PLCs

1/8-5/2 | TTh | 9a-12p | \$181.60

Introduces automatic process control with PLCs. Topics include interfacing and controlling advanced control loops and devices using various PLC-based systems.

Fluid Power in Automation

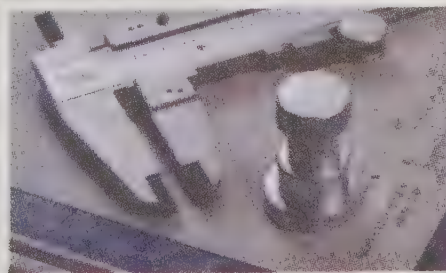

1/11-5/3 | F | 8a-1p | \$181.60

Introduces components of hydraulic and pneumatic systems and their application to automated machinery.

Machine Processes I

1/11-5/3 | F | 8:30a-2:30p | \$181.60

Introduces shop safety, hand tools, measuring instruments and basic setup and operation of machine shop equipment.

Associate Degree in Nursing Program Now Accepting Applications

Montgomery Community College's Associate Degree in Nursing (ADN) program is currently accepting applications for the fall 2019 academic year. Fifteen positions are open to qualified applicants. Applicants must have a current NC Nurse Aide I registry or be enrolled in a state-approved Nurse Aide I program to apply. Applicants must also have completed high school (or equivalent) in algebra, biology and chemistry with a grade of "C" or better. There is a three-phase application process.

Phase I must be completed by January 31, 2019 and includes:

- Applying at www.montgomery.edu/apply,

- Submitting a high school or high school equivalent transcript, and

- Successfully completing placement testing requirements.

Applicants meeting these requirements will enter Phase II and will be eligible to take the Test of Essential Academic Skills (TEAS V) in mid-February. Upon successful completion, applicants are notified of provisional acceptance and enter Phase III of the process.

Phase III involves an orientation, medical

form review including a physical exam and documentation of current Basic Life Support CPR certification, and finally, registration.

All applicants are encouraged to apply for financial assistance. Scholarships and veteran's benefits are also available to qualified applicants.

For more complete information about the ADN application process, program costs, and program requirements, please visit www.montgomery.edu/adn or call 910-898-9612.

NURSE AIDE AND PHLEBOTOMY

To be eligible to register for Nurse Aide and Phlebotomy classes, applicants must complete a pre-registration checklist. For more information about getting started, please contact Donna Harwood at 910-898-9706, Riley Beaman at 910-898-9683, or the Continuing Education Department at 910-898-9672.

NA I & PHLEBOTOMY REGISTRATION CHECKLIST

Valid driver's license or state-issued ID card

Social Security card

Copy of high school diploma or equivalent, or obtain 10th grade reading level test score (Call for reading test appointment.)

Two-step TB skin test

Flu shot during the season (Oct. 1-Mar. 31)

Completed background check form

Urine drug screening (before clinical rotations)

Proof of the following immunizations:

DTP (3 doses)

TDAP - 1 dose within the last 10 years

MMR - 2 doses or evidence of immunity with titer

Varicella - 2 doses or evidence of immunity with titer

Hepatitis B - 3 doses or sign declination form

NA II REGISTRATION CHECKLIST

In addition to completing checklist for NA I, provide current copies of NC Board of Nursing NA I registry, and current CPR certification card.

BLACKSMITHING & BLADESMITHING

Basic Knife Forging with Bill Wiggins

2/1 | F | 9a-6p |
2/2-2/3 | SaSu | 8a-6p |
\$176.60

Learn the concepts of heat treating, metallurgy and forging basics. Expect to complete one knife blade.

Mokume Gane with the Jones Brothers

3/22-3/24 | FSaSu | 9a-6p |
\$146.60

The Jones Brothers return to share their expertise as students learn the ancient technique of forging precious metals used in jewelry and knife making for bolsters and other decorative knife parts.

Tomahawk Forging with John Hege

2/15 | F | 10a-5p |
2/16 | Sa | 9a-5p |
2/17 | Su | 9a-4p |
\$146.60

Introductory class for learning forge welding. Each student will complete one tomahawk. Class includes all materials.

Stock Removal Basics with the Jones Brothers

5/10-5/12 | FSaSu | 9a-6p |
\$146.60

Learn how to make a survival/ bushcraft style knife using the stock removal method of blade construction.

Wednesday Nights Hammer-in with Gabe Mabry

W | 2/20-4/10 | 4p-8p | \$121.60

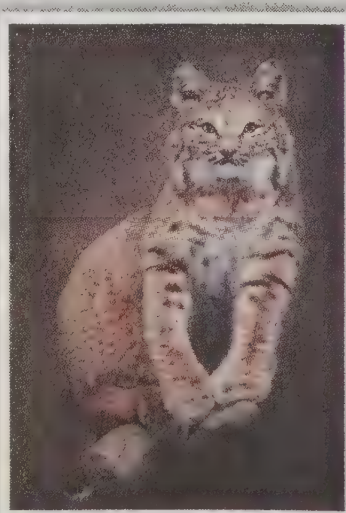

For eight Wednesdays explore the basics of knife forging with Forged in Fire champ Gabe Mabry.

TAXIDERMYS

Introduction to Mammal Taxidermy

1/7-2/12 | MTW | 9:30a-6p |
\$206.60

An introduction to mounting game heads and life-size mammals. Emphasis is on proper measuring, skinning, form selection and mounting procedures.

Deer Taxidermy

2/13-3/20 | MTW | 9:30a-6p |
\$206.60

A closer look into mounting deer heads and life-size deer bodies to build skills and achieve a natural likeness.

Small Game Taxidermy

3/25-4/30 | MTW | 9:30a-6p |
\$206.60

Emphasis on detail and life-like reproduction of small game mammals including construction of habitats.

POTTERY

Come work in our spacious studio with access to Raku, reduction, and salt glazing. Our experienced instructors can guide you through the basics or help you create your vision. Most classes are a mix of beginner and advanced instruction, where beginners work alongside more experienced students in a guided environment. For more information about any Heritage Crafts classes, please call 910-898-9675.

**Special offer! Students may sign up for additional studio time a second day at no extra cost, but must be able to commit to 80% of the meeting dates.*

Beginner Wheel Basics

3/11-4/29 | M | 1p-5p | \$72

For individuals who have no experience or who wish to build skills on a potter's wheel. Discover the various steps to center, cone, drill, open, compress, collar, pull, and shape a cylinder of clay.

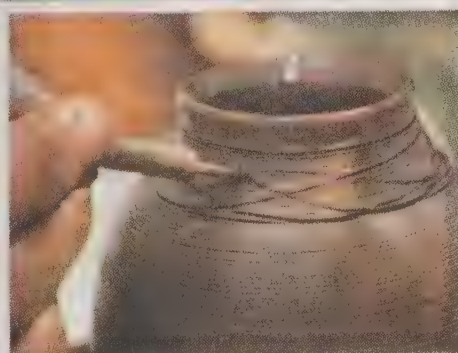

Wheel Throwing &

Handbuilding: All Levels

1/28-5/6 | M | 6p-9p | \$127

1/28-5/7 | MT | 6p-9p | \$182*

Beginners will build skills on the potter's wheel and learn techniques of coil and slab building with guided projects. More experienced students will work on building skills and advanced techniques. All levels are welcome. Guidance will be given as needed.

Studio Pottery: All Levels

1/17-5/9 | Th | 9a-4p | \$182

1/17-5/9 | WTh | 9a-4p | \$182* or

1/18-5/10 | F | 9a-4p | \$182

1/18-5/10 | WF | 9a-4p | \$182*

Beginners will build skills on the potter's wheel and learn techniques of coil and slab building with guided projects. More experienced students will work on building skills and advanced techniques. All levels are welcome. Guidance will be given as needed.

Studio Pottery: Advanced

1/15-5/7 | T | 9a-4p | \$182

1/15-5/7 | TW | 9a-4p | \$182*

Experience is necessary for this open studio class. Students will develop skills using advanced studio techniques.

BEEKEEPING

Beekeeping with Shirley Harris

3/4-4/8 | M | 6p-8p | \$35

3/9, 3/23 | Sa | 10a-12p | hive visits

With the days warming up, bees get more active. Soon, they will be out and about enjoying the first blooms. This class is for "newbies" and seasoned beekeepers and will include visits to local hives.

Explore FOUNDATIONAL STUDIES AT MCC

PREPARE FOR A CAREER OR FOR COLLEGE

Students enrolled in tuition-free foundational studies courses receive the instruction and support they need to complete an adult high school diploma or equivalent, learn English as a spoken language, prepare for employment, or for college entry.

BASIC SKILLS PLUS

Students enrolled in high school equivalency classes may choose to enroll in one of our specialized pathways. When you enroll in the Nurse Aide I, Welding, or HVAC program, your course registration fees may be waived. At the same time, you're earning your high school equivalency credential, you are building employment skills.

For more information about any of the Foundational Studies pathways, please call **910-898-9678**.

FUNDING OPTIONS FOR CONTINUING EDUCATION CLASSES

Despite state-mandated course fees, at Montgomery Community College we strive to keep costs down for our Continuing Education students. There are a number of scholarships and other opportunities that will reimburse students partially or fully for out-of-pocket educational costs.

REIMBURSEMENT SCHOLARSHIPS

Continuing Education scholarships are available to reimburse individuals who have a financial need.

MCC Foundation success scholarships are available for a number of courses and programs.

Short-term job training reimbursement over 96 hours – amounts vary

Need-based reimbursement up to \$125

Golden Leaf reimbursement for training over 96 hours up to \$250

State Employees Credit Union reimbursement for unemployed, enrolled in training courses over 96 hours up to \$500

Project Skill Up reimbursement for welding or small engine repair from \$100 – \$201.60

Heritage Crafts and NRA reimbursement scholarships – amounts vary

WORKFORCE INNOVATION AND OPPORTUNITY ACT / ADULT DISLOCATED WORKER PROGRAMS

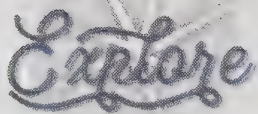

Eligibility – Dislocated workers, unemployed, underemployed. Classes or curriculum programs must be approved by Regional Partnership Workforce Development Board.

Amounts vary from \$500 for short-term up to \$6,000 for long-term education.

APPRENTICESHIPS

Offers apprentices on-the-job training and tuition-free education. Apprentices agree to the curriculum program and job training provided by the sponsoring employer.

Depending on the various types of training, specific scholarship applications are required. Please contact Shavier Mason at masons@montgomery.edu or call **910.898-9672** for information about scholarships and training programs available.

DEGREE, DIPLOMA, & CERTIFICATE PROGRAMS

If you have never attended Montgomery Community College, you may follow these steps to help you get started on a degree, diploma or certificate:

Visit www.montgomery.edu/apply to complete the NC residency determination process and the online admission application.

Submit an official high school or equivalency (i.e., GED®) transcript and official transcripts from all colleges attended.

Take any required placement testing when notified by our enrollment office.

Apply for financial aid at www.montgomery.edu/financialaid.

Make an appointment with your academic advisor to schedule your classes and register.

To complete your registration, pay tuition and fees online via WebAdvisor or in person at MCC's Business Office. A payment plan option is available during specified dates. For payment plan information visit www.montgomery.edu/business-office. If you have applied for financial aid, you may check the status of your application through your WebAdvisor account.

REGISTRATION

Advising & registration for new students: please call **910-898-9600** for an appointment

Late registration: January 3, 2019 9:00 AM–12:00 PM & 4:00 PM–7:00 PM

Submit your application now for spring term!

ACADEMIC CALENDAR: SPRING SEMESTER 2019

January 3	Late registration for Spring
January 7	Classes begin
January 16	Last day to drop classes for partial tuition refund
January 21	Martin Luther King, Jr. holiday
January 22	14-week session begins
February 4	12-week session begins
March 4	Mid-term
March 5 - 9	Spring break
March 11	2nd 8-week session begins
March 11 – 22	Priority Advising/Registration opens for Summer & Fall (continuing students)
March 25 – April 26	Advising/Registration opens/continues for Summer (all students)
March 25 – July 22	Advising/Registration opens/continues for Fall (all students)
April 1	Financial Aid priority deadline for Summer Session
April 5	Last day to drop with a W
April 22	Easter Holiday
May 6	Term Ends
May 8	Graduation

or call 910-898-9672 for updated
information.

Master a new subject with our online courses. Learn new skills—improve job prospects—take the next step in your career.

Each Ed2Go course is instructor led, highly interactive, six weeks in length, and costs only \$70. Choose from hundreds of subjects from Accounting and Finance to Writing and Publishing and everything in between.

Here is just a sample of some of our more popular courses:

Speed Spanish - Learn six easy recipes to glue Spanish words together into sentences, and you'll be engaging in conversational Spanish in no time.

Discover Digital Photography - Informative introduction to the fascinating world of digital photography.

Computer Skills for the Workplace - Gain a working knowledge of the computer skills you'll need to succeed in today's job market.

Visit www.ed2go.com/mccc for a complete catalog of courses.

Create a legacy that will ensure the educational goals of students for years to come.

Legacy gifts to Montgomery Community College Foundation can take many forms including pledges, matching funds, or planned gifts such as bequests, stocks, securities, life insurance, charitable annuities, or charitable remainder trusts.

Call 910-898-9603 to find out how you can make your mark with a legacy gift to Montgomery Community College Foundation.
